

Introducing the WorkLite and WorkLite Plus

The WorkLite is a new, 110 Volt, low energy Site Light that can stand on the floor or mount on to a range of tripods. The WorkLite Plus also incorporates a 16A thru' socket.

The WorkLite incorporates a powerful, 38W, 2D, low energy light source, providing a light output of 2850 lumens, which is similar to the output of a 200W tungsten halogen floodlight but with none of the heat, none of the glare and only 20% of the electricity consumption.

The WorkLite is fitted with 5 metres of Yellow PVC Arctic grade cable complete with a 16A 110V 3P plug to BS EN 60309-2. The WorkLite is protected to IP44 and is therefore suitable for outdoor and indoor applications.

Tripods and WorkLites are ordered as separate items. The WorkLite simply mounts on to the M8 spigot fitted to each tripod.

Item No.	Description
S060003	Worklite, 110V, 38W
S060677	WorkLite Plus c/w Socket
S210018	THCMT Swing Leg Tripod
S200315	THX Fixed Leg Tripod
