# TRANS POWER

## Plant Rooms

To provide 110V and 24V supplies for Power Tools and Inspection Handlamps. Available in steel or insulated enclosures, fitted with 16A or 32A socket-outlets, or MCBs to feed remote sockets.

TLW SERIES

## Rail

For Points Heating, Step-up / down pairs, Isolation, Signalling, Power and Lighting. Supplied in high IP rating enclosures, galvanized or stainless steel; petroleum jelly filled when required. Various items approved by Network Rail and LUL.

SPECIAL TRACKSIDE ENCLOSURE

## Confined Locations

To feed 24V lighting and equipment in Small Tunnels, Vessels, Boilers, Pits and other confined work spaces. Transformers can be portable or wall mounting; supplied with or without socket outlets.

ITU SERIES

## Tunnels

For temporary and permanent installation including: 1000:400V Step-up and Step-down pairs; Booster Transformers; 110V Power & Lighting transformers with socket outlets, MCB and RCD protection.

TUNNEL POWER TRANSFORMER  
6 kVA THREE-PHASE

### Mains Isolation

1:1 ratio Isolating Transformers to feed Test Benches, Earth Free areas, etc. Generally supplied in all-insulated enclosures or in steel enclosures with insulated output termination arrangements.

ITU SERIES

### Overseas

Step-up or Step-down transformers to feed equipment designed to work at different voltages to those found in the UK or to allow UK made equipment to be used overseas. Can be supplied as double wound or auto wound.

ATLW

## Workshops

To provide 110V for Power Tools. Socket outlets can be fitted directly to the transformer or they can be located remotely and fed from MCBs within the transformer.

TDC SERIES

## TRANS POWER

Blakley Electrics manufactures a range of enclosed transformers up to a rating of 50kVA. The transformers are available in metal enclosures with a variety of IP ratings, and a choice of finishes such as stainless steel, galvanised and powder coated. GRP enclosures are also available in a variety of types and sizes.

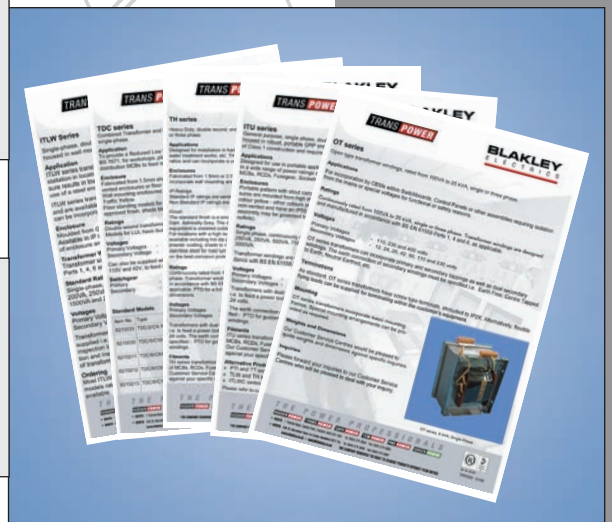

Industries served include but are not limited to rail, overground and underground, light & heavy industry, the military, construction, retail, leisure and government.

Blakley transformers are manufactured generally in accordance with BSEN 61558 Parts 1,4,6 and 23 as applicable.

If you can't find a product that meets your requirements, please contact our Northern or Southern Service Centres, we will be very pleased to help.

## Product Data Sheets

A comprehensive data sheet is available for the product groups within the TransPower range. Details include the technical specification, photographs and the standard range available. Data sheets are available and can be downloaded from our website.

The Company reserves the right to change products without prior notice.

# THE POWER PROFESSIONALS

## **HIGHER POWER**

110V Portable Power & Lighting Products

## **TRANS POWER**

Power Transformers up to 50kVA for Indoor and Outdoor Applications

## **SAFE POWER**

Safe Supply Units, Sensor Based RCD Protection plus RCD & Monitored Earth Protected Sockets for Industry and Education

## **TEM POWER**

Temporary Distribution Assemblies for Construction, Events, Film & TV and the Military

## **PRO POWER**

Permanent Distribution Assemblies for Outdoor, Arduous or Special Applications

## **GREEN POWER**

Distribution and Lighting Equipment Designed to Provide Reduced Energy Consumption
