

WEEE & Battery Directive

The Waste Electrical and Electronic Equipment (WEEE) Directive came into effect on July 1st 2007 and the Battery Directive came into effect on May 5th 2009. Under these directives, we have liability for the end of life disposal of certain products that we manufacture, import or brand (Blakley Products).

However, we generally do not have the end of life disposal responsibility for products supplied to us by other producers within the EU (Distributed Products).

Industrial Batteries

As a producer of industrial batteries under the Waste Batteries and Accumulators Regulations 2009, we Blakley Electrics produce Nickel Cadmium, Lithium Ion batteries. We are obliged to take back free of charge, waste industrial batteries supplied to an end user for treatment and recycling. We are required to do this in any calendar year we place new industrial batteries on the market.

If any of our customers or in certain cases other end users, require us to take back Industrial batteries, they should contact us at our Southern Service Centre:

1-3 Thomas Road, Optima Park, Crayford, Kent, DA1 4QX.

Northern Service Centre:

Unit 55, Monckton Road Ind Estate, Wakefield, Yorkshire, WP2 7AL

sales@blakley.co.uk • www.blakley.co.uk

We will agree the necessary arrangements for the proper treatment and recycling of the waste industrial batteries.

Battery producer registration number: BPRN01915
EEE producer registration number: WEE/HC0061TU
(Recycling scheme is administered by Electrolink)

Distributed Products

These include: fluorescent tubes (2' and 5'); 230V discharge floodlights and lamps; the Wirefield range of 110V fluorescent fittings (whether supplied loose or pre-wired).

Responsibility for recycling these products rests with the Producers. If you have any of these products that are at the end of their life and require disposal, please contact the Producer directly. The products are marked with the Producers' names.

Since the introduction of these directives the cost of recycling is built into the selling price of affected product. However this may not include the cost of returning the product to Blakley Electrics Limited or any other Producer.

Please contact us about the disposal of Historic WEEE i.e. that supplied prior to August 13th 2005, where different arrangements apply.
